Bio

Highly creative and passionate multimedia designer with a strong drive in design, video production, and digital content industry. I bring dynamic and innovative approaches to every project, leveraging excellent collaborative and interpersonal skills to ensure on-time, within-budget project completion. Detail-oriented and adaptable, I thrive in fast-paced business environments, consistently delivering exceptional work.

My dedication to continuous learning is evident in my ongoing training in industry-standard software including InDesign, Illustrator, Photoshop, Premiere Pro, After Effects, Dreamweaver, and Cinema4D. This commitment enhances both my technical proficiency and time management abilities, positioning me as a versatile and skilled multimedia professional.
